

AARS 117TH ANNUAL MEETING RAILTOUR

[REGISTER FOR THIS TOUR BY JUNE 20!](#)

CIRCLE TRIP OF THE CONRAIL SHARED ASSETS NORTH JERSEY TERMINAL OPERATIONS.

• **Port of NJ/NY • Ethanol Terminals • New York City Skyline and Statue of Liberty**

Sunday, July 21, Noon Board at Newark Penn Station.

Trip begins over Amtrak's Northeast Corridor to Hunter Interlocking where it diverges onto the Conrail Lehigh Line to Port Reading Junction/Mannville, NJ, and then continues over the Port Reading Secondary Track to Port Reading, then proceeds to the "Chemical Coast" through the Oak Island Terminal and cross the Upper Newark Bay to the National Docks Branch with clear views of New York skyline and Statue of Liberty.

We will then pass through the recently enlarged Bergen Tunnel and turn the train at Croxton and enter the Northern Branch, cross the Hack movable bridge and run the former PRR Passaic & Harsimus branch back to Newark.

Power for the train will be Juniata Terminal Company's restored PRR E8 locomotives 5711 & 5809 as well as business cars Pennsylvania 120 and Warrior Ridge.

The Morristown & Erie Railroad will also provide business cars from their fleet for this train. The trip is being operated by Amtrak & Conrail for the benefit of the association.
